PARTS & ACCESSORIES AVILABLE

PARTS	DESCRIPTION
1	2 in 1 rechargable Mosquito Killer Lamp (1 piece)
2	a brush (for cleaning use)
3	a user manual
4	a USB cable

HOW THE RECHARABLE 2 IN 1 MOSQUITO KILLER LAMP WORKS

Our design optimizes the lamp structure to ensure that the light distribution curve of the LED is comparable to that of a filament bulb. The lamp offers efficient LED technology combined with the styling of classic filament bulb. The blue light with special wavelength 365-395nm attracts mosquitoes and other flying insects to the high voltage grid leading to death of insects by electric shock of 800V. Mosquito bodies will fall down through the inner space of the lamp and can be brushed away.

Size:270x140mm
